

QUALITY, ENVIRONMENT AND SAFETY POLICY

New Docks S.r.l. is a family-owned company founded in 1991 that carries out logistics activities for third parties at its offices and warehouses located in Nerviano (Milan).

New Docks policy consists of:

- guarantee constant attention to one's reference market;
- continuously improve their service levels;
- expand the range of services offered;
- expand its customer base;
- enhance the skills acquired to enrich one's own working environment.

The principles to which New Docks abides are:

- the protection of the safety of employees, suppliers and all those who have access to their facilities. This is to prevent the occurrence of accidents at work, occupational diseases and the spread of epidemics from occurring (such as Covid 19);
- respect for the environment.

The objectives that New Docks pursues are:

- guarantee the satisfaction of its customers;
- consolidate its market position;
- ensure compliance with the laws, regulations and applicable mandatory regulations concerning environmental protection and safety in the workplace;
- constantly improve safety conditions in the workplace;
- continuously improve the management of environmental issues.

Therefore the management of New Docks undertakes to:

- be available for transparent dialogue with public authorities;
- be available to listen to employees, suppliers and all those who have access to their facilities;
- display a copy of this policy at its headquarters and on the www.newdocks.it;
- review this document at least annually to assess the level of achievement of the objectives and its suitability both to the new needs of the company and to the new market conditions.

Nerviano, July 2020
